

UNITED STATES BANKRUPTCY COURT
SOUTHERN DISTRICT OF INDIANA

CHANGE IN LOCAL OPINIONS DATABASE

The Court has transitioned to use of the Government Printing Office's Federal Digital System ("FDSys") to retain and make available the Court's opinions. Previously, these opinions were in a local database that lacked user-friendly search options.

Beginning on Monday, May 13th, when you select the "Opinions" link from the Court's Website (in "[Judges and Calendars](#)", the link appears under each Judge's name) you will be routed to FDSys and the opinions for that specific judge. To search the Judge's opinions by Code section, Rule, or topic, follow these steps:

1. Click the "Within Results" check box.
2. Type the search criteria in the text box.
3. Click the "Search" button.

To learn how to search opinions from other Courts or about advanced search techniques click on the "Help" link. [Note – not all Courts are using FDSys at this time but more are joining on every month.]
