

UNITED STATES BANKRUPTCY COURT  
SOUTHERN DISTRICT OF INDIANA

**ECF EVENT CHANGES: RESPONSES AND OBJECTIONS**

Effective Monday, December 6<sup>th</sup>, the Court is implementing minor changes to several electronic filing events:

- The Response event will only be for responses in support of the requested relief – a response in opposition should instead be filed using the Objection/Limited Objection event instead. The Response event will also prompt use of the Objection/Limited Objection event if the support is limited in any way, such as requesting specific language in the Court’s order.
- The generic Objection event will now include an option for a limited objection. (The filer will be asked if the objection is limited, and if “Yes” is selected the word “Limited” will appear in docket text.)
- The option in the Response event for the case trustee to indicate a neutral response has been eliminated as unnecessary.

These changes are being made because of recurring problems with misuse of the “Response” event and to assist the Court in identifying more quickly matters that will require Judicial action.
