

UNITED STATES BANKRUPTCY COURT  
SOUTHERN DISTRICT OF INDIANA

**UPDATE ON  
ORDER DISTRIBUTION PROCESS**

After a few weeks' experience with the new order distribution process, the Judges have decided to make a few additional changes.

1. All reference to the filing of a certificate of service by the party charged with making distribution has been removed from docket text and Court-generated orders. Counsel are welcome to file certificates of service to create a record as to their distribution, but the Court is not requiring that filing.
2. The Court will soon resume responsibility for distributing any order that denies a request for relief and also orders on reaffirmation agreements. In any case, the Judge may also direct that an order provided by a party be distributed by the Court rather than counsel.
3. The term 'prevailing party' in the direction to make distribution will be replaced, when possible, with more specific identifiers such as 'trustee,' 'creditor [name]', 'debtor' - using the role type assigned the entity by CM/ECF.

The Court welcomes continued input on the order distribution process. Suggestions or questions should be sent to [Local\\_Rules\\_Comments@insb.uscourts.gov](mailto:Local_Rules_Comments@insb.uscourts.gov).
